

I am a XM subscriber and have been for over two years. I don't listen to regular broadcasting as it doesn't offer me the venues I enjoy. We get three stations that feature John Boy and Billy and our community is less than 50,000 population.

Our government has lost it's mission statement. It is no longer of the people, or even for the people. It is for those who have the big bucks and I resent this. I did not spend my life in the military to give up the Constitution and replace it with personal agendas, lobbyists, and deep pocket companies. I urge you to repel the NABs petition 04-160. This is not good for America.

Bottom line is simple - if the NAB offered us what we wanted, XM and Sirius would not be in business and thriving.
